

# **Ceiling Blanket Insulation**

Mammoth ceiling blankets are designed to be installed in new or existing roof cavities.

An effective and easy form of thermal insulation, Mammoth® Modern Insulation ceiling blankets have a range of R-values of up to R4.0, or R8.0 when double layered. Mammoth blankets are long lasting, won't sag or settle over time, are non-irritant and highly effective. Mammoth products contain recycled polyester fibres. Mammoth ceiling blanket insulation uses up to 7,400 recycled PET plastic bottles per 100sqm\*.

For new ceilings without a roof space there is the option of our <u>Mammoth Skillion Ceiling Sections</u> and for skillion and truss roofs we have <u>Mammoth Ceiling Battens</u>.

Can be double layered to meet the new Building Code.

Mammoth ceiling blankets are manufactured in roll form so that they can be installed as both a single or double layer system. For any system - single or double layered - the joist depth must be greater than the insulation thickness.

Mammoth ceiling blankets are designed in widths to fit snugly between joists or trusses in a single layer option or alternatively with a second layer run perpendicular to the first, covering the top of the joists or truss bottom chord reducing thermal bridging in these areas.

## **KEY FEATURES**

- Soft, roll-form 100% polyester insulation blanket for ceilings. Can be double layered for higher R-value.
- Mammoth ceiling blanket insulation uses up to 7,400 recycled PET plastic bottles per 100sqm\*. \* Calculations are based on 500ml PET Bottles (16.2g).
- Unaffected by moisture, Mammoth will continue to perform once dried out. Mammoth is moisture, mould and mildew resistant.
- Lightweight and easy to handle can easily be torn to length or cut with shears. Available in varying widths and lengths to suit most applications.
- Heat bonded no glues or binders that can break down so it won't sag or settle over time.
- Red List Free no formaldehyde or pesticides added.
- Safe, non-itch, odourless and non-toxic no precautions are required for handling the product.
- All Mammoth ceiling blankets are BRANZ 797 Appraised.
- All Mammoth ceiling blankets have Eco Choice Aotearoa (prev. Environmental Choice) certification.
- Mammoth products are made in a zero waste production process and are fully recyclable.
- Mammoth ceiling insulation products have an ODP of zero.
- Long lasting, Mammoth insulation is performance warranted for 50 years (T&Cs apply).

<sup>\*</sup> For Double Layering - Double the quantity of product is required. For instance, a 100m2 area requires 200m2 of product to achieve a double layer.
